

What Quality Standards do the stockings comply to?

Credalast Classic and Credalast Velvet Made To Measure are both Circular Knit stockings and conform to Drug Tariff specification No. 40 for the provision of Class I, II, and III graduated compression. They meet the requirements of British Standard BS 6612:1985.

They are available on FP10 Prescription.

Stocking Application and Removal Aids

To assist your patients and to make it even easier in the application and removal of their stockings please consider the following award winning products.

Products in the Easy Range from Credenhill have been specifically designed to help put on Open and Closed Toe compression stockings, the Easy-Slide for open toe hosiery application is available on Drug Tariff. ActiGlide from Activa Healthcare is available for open and closed toe stocking application see both companies' web sites for more details or call **Credenhill on 0800 195 0650** or **Activa Healthcare on 0845 606 707**.

How do I order Made To Measure Hosiery?

Print off measurement forms from either the Credenhill web site www.credenhill.co.uk or www.activahealthcare.co.uk or get one from a Credenhill/Activa team representative in the community. **Then measure your patient and fill out the form, see tips for filling**

out the form. Please be specific naming the product to ensure you get what you want. At the pharmacy the pharmacist will fax the form to Credenhill, the number is clearly printed on the form. The hosiery will then normally take **5 working days to arrive**.

Where can I get guidance on Measurement/Fitting/Compression?

Please see section **How do I order Made To Measure Hosiery**

Please see the following compression Table:

Class I (14-17 mm Hg)

Class II (18-24 mm Hg)

Class III (25-35 mm Hg)

Why change to Credalast **Velvet** Made To Measure Stockings?

The new Credalast Velvet Stockings are the most advanced Made To Measure prescription stockings available and the first prescription stockings to include Climate Effect technology.

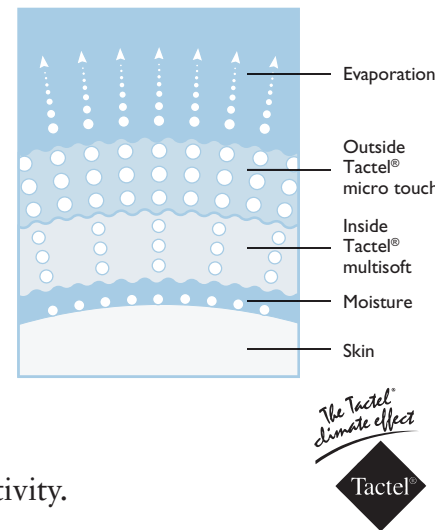

Developed by the Credenhill/Activa Healthcare Partnership, known over many years as the leading Made To Measure supplier. The Velvet Stocking represents another innovative leap forward in providing many benefits to the patient.

Why is the Credalast **Velvet** such a high quality Made to Measure Stocking?

Developed from premium Swiss stocking manufacturing capability with high technology yarns, Credalast Velvet offers:

Breathable Fabric

- The Credalast Velvet is the first prescription Made To Measure Stocking available with the Tactel® Climate Effect which wicks away moisture and improves air permeability, helping to keep an optimum skin balance regardless of activity.

Patient Concordance

- Patients are more likely to wear the stocking due to the ease of putting them on, the comfort and cosmetic appearance, as well as high performance graduated compression properties.

- Patient surveys feedback very high levels of satisfaction with the original Credalast Classic Made To Measure Stocking, the Credalast Velvet is even more advanced.

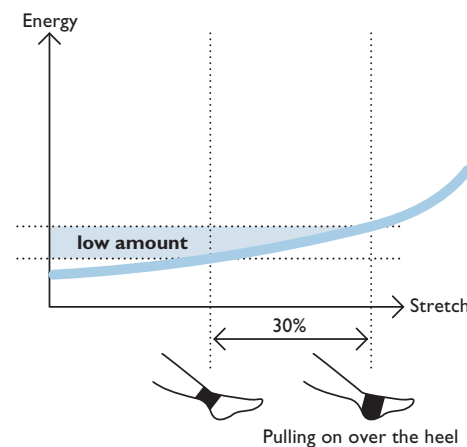

Comfort and Elegance

- The advanced materials used provide visual elegance with optimum comfort.
- The Velvety touch of the High Technology Tactel® microfibrils offers outstanding comfort and a soft feel as does the reinforced heel and the specially sewn strong flat seams.

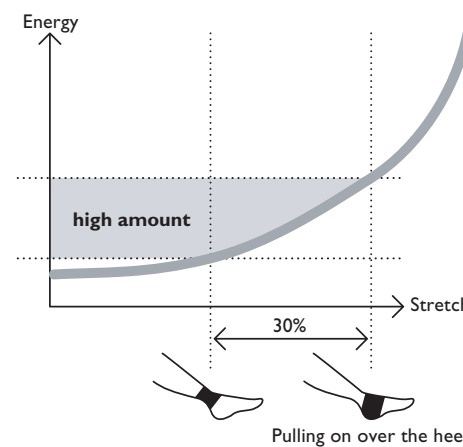

Greater Stretch

- Easier to put on and wear because of the flat energy/stretch curve within the technology of the knitted fabric helping to perfectly hug the contours of the leg.
- The stocking retains its shape and therefore consistently performs and also looks great.

Energy needed to put on Credalast Classic and Velvet stockings

Energy needed to put on a comparable stocking

Try the Credalast **Velvet** Made To Measure but do not forget the Credalast Classic.

We believe Healthcare Professionals and patients will want to convert to the Credalast Velvet Made To Measure as it offers so many benefits over existing products in the market.

Thousands of patients have been very happy with the original Credalast Classic Made To Measure Stocking, which offers many of the advantages of the Velvet, although it is a more traditional stocking which suits many patients and is still available.

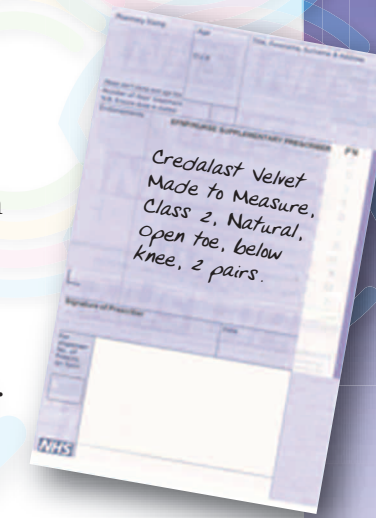

This is a unique choice that no other supplier can offer you, please remember to clearly prescribe which of the two ranges of stockings you require.

What should I prescribe? When will I get the stocking?

Both types of stocking are available on Drug Tariff/FP10. Please state either Credalast Classic or Credalast Velvet Made To Measure, compression class, colour, style, and quantity for each leg.

Example Credalast Velvet Made To Measure, Class 2, Natural, open toe, below knee, 2 pairs

Delivery will normally be within 5 working days of receiving your order/measurement form.

Why is the Credenhill/Activa Healthcare partnership the leading supplier of Made To Measure hosiery in the UK?
